

## Accorder des autorisations d'accès à un dossier partagé

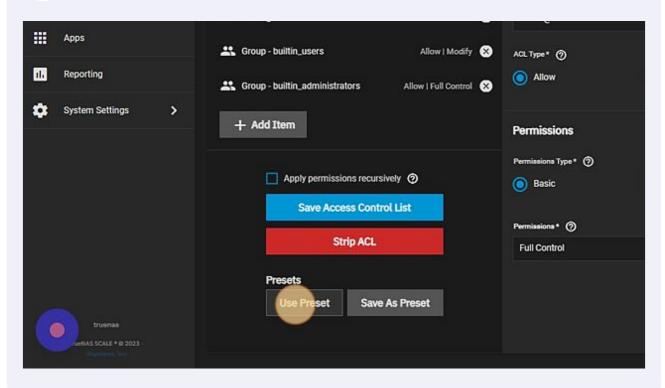

2 Cliquez sur le dossier partageable, configuré à l'étape précédente

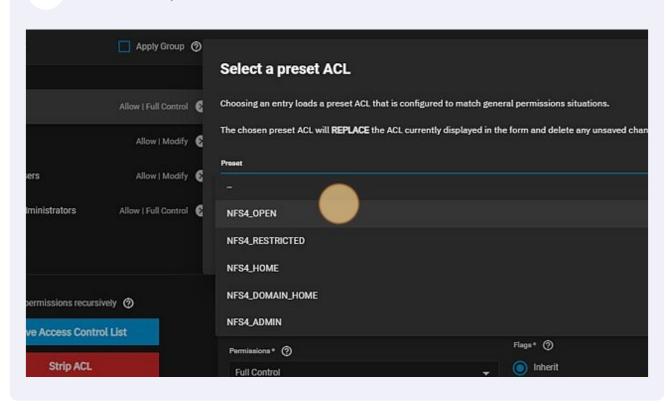

**3** Dans l'onglet "Permissions", cliquez sur "Edit"

4 Cliquez sur "Use Preset"

**5** Choisissez le preset "NFS4\_OPEN"

## 6 Cliquez sur "Continue" et ACL ads a preset ACL that is configured to match general permissions situations. CL will **REPLACE** the ACL currently displayed in the form and delete any unsaved changes. Continue Cancel
